*)Register new user / Login existing user

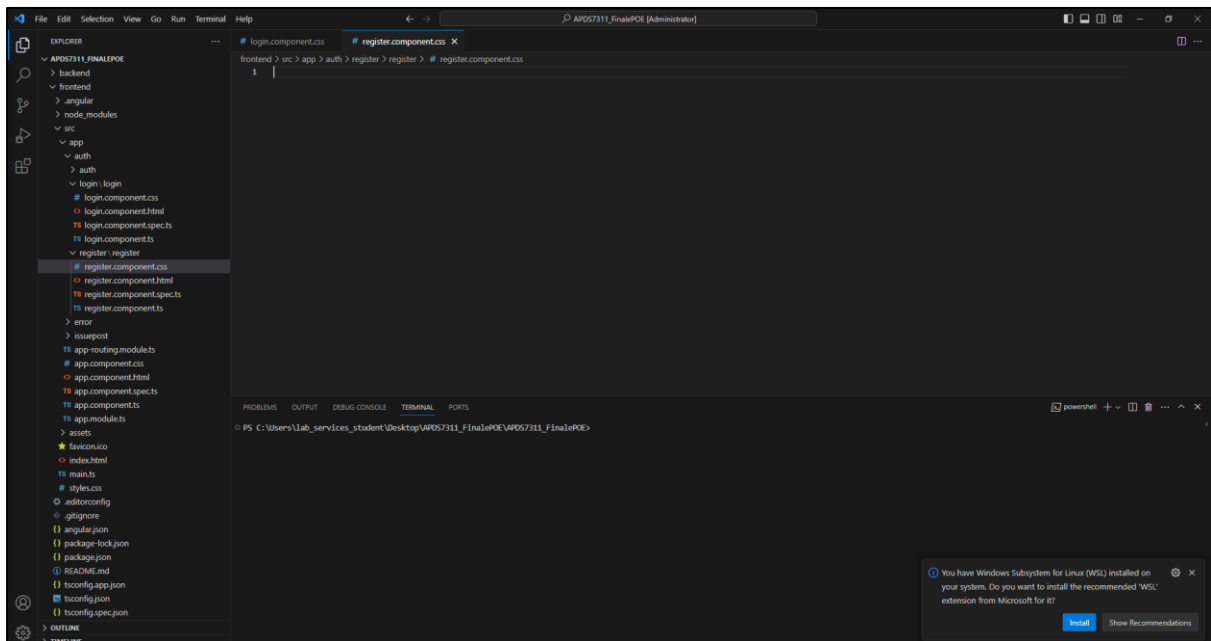

Figure 11 (1 November 2023)

Figure 12 (1 November 2023)

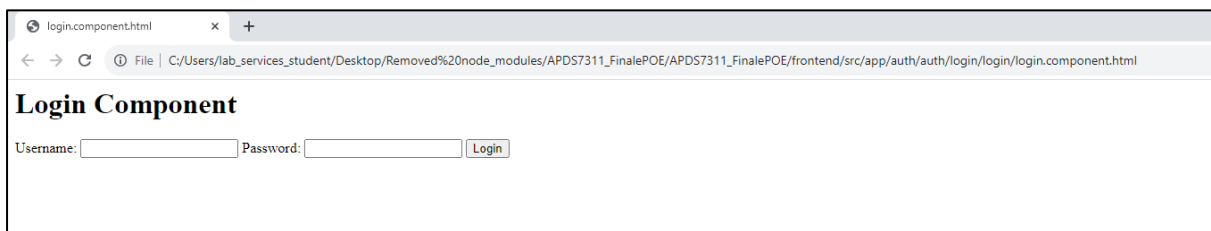

Figure 13 (7 November 2023)

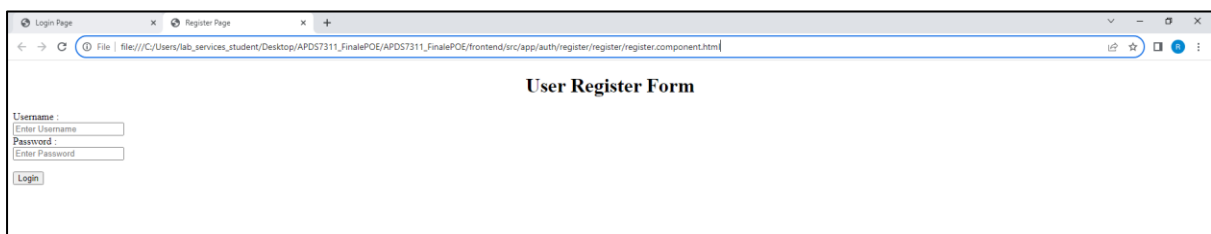

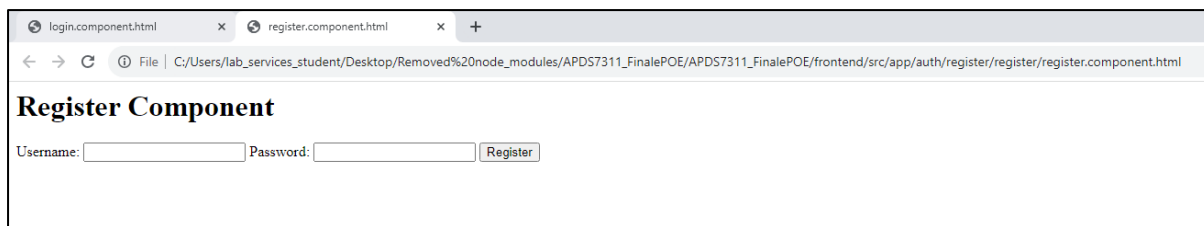

Figure 14 (1 November 2023)

The screenshot shows a web browser with two tabs: 'login.component.html' and 'register.component.html'. The address bar displays the file path: 'C:/Users/lab_services_student/Desktop/Removed%20node_modules/APDS7311_FinalePOE/APDS7311_FinalePOE/frontend/src/app/auth/register/register/register.component.html'. The main content area is titled 'Register Component' and contains a registration form with the following elements:

- Register Component**: A heading for the form.
- Username:** A text input field.
- Password:** A text input field.
- Register**: A button to submit the form.

```

Figure 23 (6 November 2023) - running ‘ng serve --open’ command

Must Ensure:

- 1) Services are used to communicate with the backend API in a secure fashion
- 2) You consider input field validation, password obscuring and sanitization
- 3) Error messages are displayed using a custom component
- 4) Login Information is persisted after authentication
- 5) Additional security packages are implemented – express-brute; helmet; morgan
